

Women's Health and Fertility Services

The Gianna Center of Philadelphia is dedicated to providing all women from teens to seniors with authentically Catholic, pro-life health care! Their services include general gynecologic care and yearly women's check-ups, natural family planning education (Creighton Model Fertility Care System), and infertility treatment using NaPro Technology (Natural Procreative Technology). Every aspect and stage of their care honors the sanctity of every life, the dignity of women, and the sacramental integrity of marriage.
